DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Claims 1, 3, 7, 9-13, and 15-17 are allowed because none of the prior art of record discloses, teaches, or suggests the method comprising the steps of: introducing into an extruder a polyolefin polymer, introducing into the extruder a masterbatch comprising polyolefin elastomer, plasticating the polyolefin polymer and the masterbatch in the extruder forming a molten thermoplastic polyolefin composition, introducing a continuous reinforcing fiber material into the molten thermoplastic polyolefin composition, extruding the molten fiber reinforced thermoplastic polyolefin composition through a die forming a continuous extrusion of heated fiber reinforced thermoplastic polyolefin composition having a desired cross-sectional shape, conveying the continuous extrusion of heated fiber reinforced thermoplastic polyolefin composition to a cutter, cutting the continuous extrusion into a plurality of performs and conveying the performs away from the cutter into a compression mold, a vacuum forming mold or a thermoforming mold, and forming a fabricated article comprising the fiber reinforced thermoplastic polyolefin composition.

The closest prior art (BETSO et al.; US 5,576,374) discloses a thermoplastic polymer composition, specifically a thermoplastic polyolefin comprising a polypropylene, at least one substantially linear ethylene polymer and/or a linear ethylene polymer and a non-continuous filler (glass fiber) to make articles by extrusion. However, it fails to disclose the masterbatch comprising polyolefin elastomer being introduced into the separate stream line.

Also, the closest prior art (ADEDEJI; WO 02/43943 A1) disclose a method for preparing an article from a thermoplastic resin but TOP resins are not mentioned. Further, in addition to the thermoplastic resin, the blends of ADEDEJI contain one additional component which may be another thermoplastic resin or other than thermoplastic resin. However, it fails to disclose the additional component as being polyolefin elastomer or a TPO.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
